

BLACKTOP

A revolution in **physical education** assessment

Lightning-fast assessment

With 130+ skill and fitness assessments, you can collect rich, standards-based performance data right on an iPad. From basketball dribbling to wall sit and mile run, Blacktop includes all the assessments you'll ever need need, and then some.

Standards-based reporting

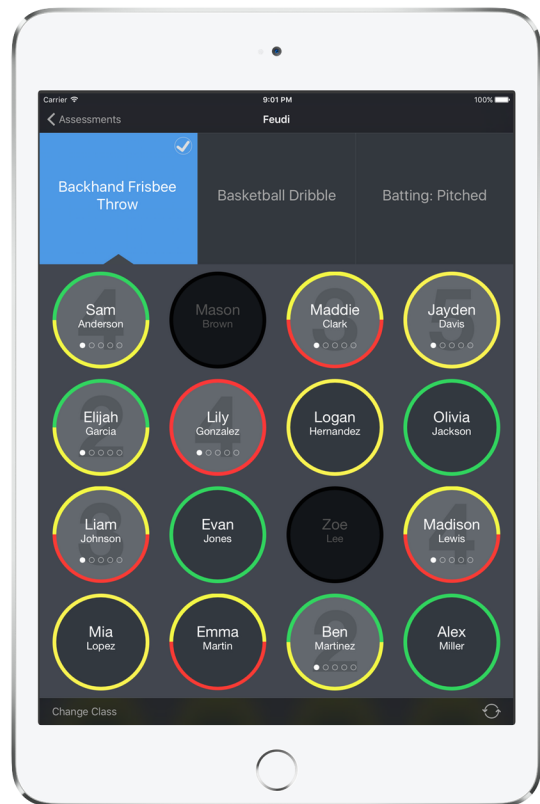

Explore and analyze all your student performance data with the Blacktop web app. Compare students to their classmates, and easily see growth over time. Blacktop even calculates a suggested grade for each student.

Attendance and participation

Collect detailed attendance and participation data on the iPad and then review it on the web. Blacktop lets you capture positive and negative participation notes to get a true picture of student behavior.

Full student management

Admin users can effortlessly manage students and classes throughout the school year using a simple web interface. Get a new student? No problem. Simply add them to a class, and they'll appear on the iPad the next time you sync.

"This is exactly what the PE community has needed for a long, long time: a super simple way to assess."
